

## Quotes Used in Presentation:

Access is not a nice-to-have. Access is a need-to-have. Access is not a privilege. Access is a civil right. Say it with me now: Access is not a nice-to-have. Access is a need-to-have. Access is not a privilege. Access is a civil right. Tweet by Emily Ladau @emaily\_ladau

We should not have a society where the value of marginalized people is determined by how well they can scale often impossible obstacles that others will never know. Ijeomo Oluo

[Audism is] The notion that one is superior based on one's ability to hear or to behave in the manner of one who hears. Thomas Humphries

I sometimes visualize the ongoing cycle of racism as a moving walkway at the airport. Active racist behavior is equivalent to walking fast on the conveyor belt...Passive racist behavior is equivalent to standing still on the walkway. No overt effort is being made, but the conveyor belt moves the bystanders along to the same destination as those who are actively walking. Some of the bystanders may feel the motion of the conveyor belt, see the active racists ahead of them, and choose to turn around...But unless they are walking actively in the opposite direction at a speed faster than the conveyor belt – unless they are actively antiracist – they will find themselves carried along with the others. Dr. Beverly Daniel Tatum
